Do you use only print medium to promote your business?

Do you know that brand recall/retention is much effective through audio-visual medium?

Do you have displays in office which can be utilized more than just running slides?

Do you think videos will help you put across your ideas in better and effective way?

Do you want your hand held Android devices to play and loop videos in kiosk mode?

### What is SureVideo?

**SureVideo** enables your Android tablets and sticks devices to play videos, images and flash files in kiosk mode.

You can use your Android device with all the functions as usual and with a launch of **SureVideo**, it transforms into a kiosk to play videos, images and flash files of your choice. SureVideo supports all Standard and High-Definition video formats and multiple screen modes.

### How does it work?

- Download and Install **SureVideo** on your Android tablet or stick
- Access the password protected settings
- Specify the files or folders that has the videos/images/flash files you wish to play
- SureVideo blocks all the applications and starts playing only the allowed media files

### Benefits:

- Quick and Easy Installation/Configuration
- All Standard & High-Definition video formats supported
- Secures your Device Settings and Data with password
- Better Viewing Experience with Full Screen Mode
