42Gears' Color Palette

While blue is the dominant color, we have multiple colors in our color palette to make it more vibrant.

Sufficient contrast between the background and the 42Gears logo is required. If you are using the white version of our logo, it should be used on a blue background. If you are using our blue logo, it should be used on a white background.

Do's and Dont's

Do's

The company name should always be written as '42Gears' (with capital G and no space between 2 and G).

Don'ts

- Do not create a grayscale logo/symbol to represent our brand.
- Do not alter, add, or combine other text to the word "42Gears" in the logo.
