

Digital Signage Solution

Supported Platforms

SureVideo - Digital Signage Solution

SureVideo by 42Gears is an innovative digital signage solution that easily converts your Android, iOS/iPadOS, and Windows devices into portable yet versatile digital signage devices. With SureVideo, you can deliver targeted content such as ads, news, product videos, etc., across various devices to quickly grab your customer's attention.

Key Features:

Loop Allowed Media Files Only

Specify and allow looping of only allowed media files in lockdown mode.

Auto-Launch SureVideo

Set SureVideo to launch automatically whenever the device is switched on or rebooted.

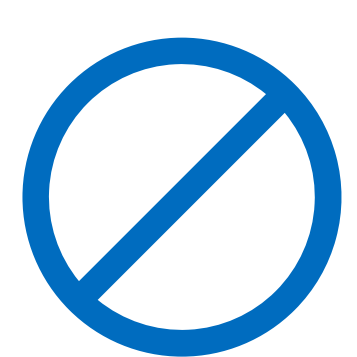

Device Security

To prevent a user from tampering with the device, SureVideo restricts access to all blocked apps, device settings, and lockdown settings.

Auto Lockdown Configuration

Without physically connecting to devices, import/export from the SureVideo cloud server to configure settings and schedule auto-updates of SureVideo configuration.

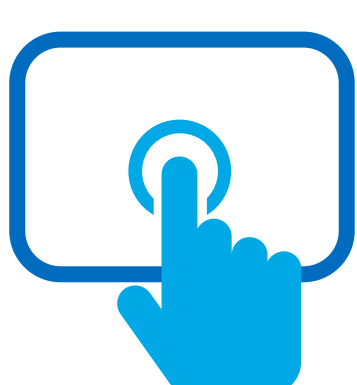

Disable External Buttons

Disable the external power button on Android devices to prevent user misuse.

Branding & Personalization

Brand mobile devices by customizing the UI with wallpapers, screensavers, watermark etc.

Kiosk Mode

Disable or hide the bottom status bar and ensure only allowed media files can be looped and played on Android devices.

Album View

Admins can organize the allowed media files on the screen as customizable thumbnails so users can choose and play any media from the SureVideo home screen.

SureVideo - Digital Signage Solution

Stream Videos

Stream and loop videos from YouTube/Host link/Live streaming URL in lockdown mode.

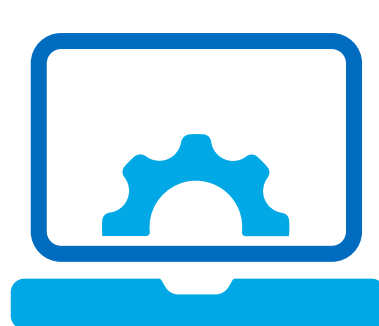

RSS and Text Feed

Live streaming of news feeds and any text file content can be displayed on the video screen.

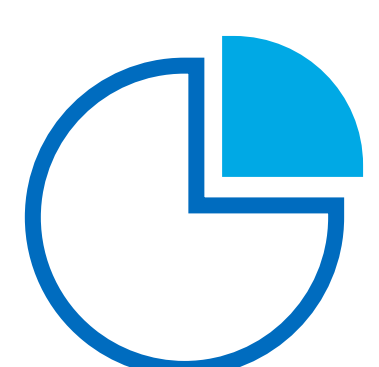

VR Mode

Play 360° videos on VR supported devices.

Compatibility with SureMDM, 42Gears' UEM Solution

Use SureMDM to remotely install, configure, and manage SureVideo.

SureVideo Analytics

Learn which media files were most viewed by users and for how long were your media files viewed.

Offline Activation

Activate SureVideo without an internet connection using device details like IMEI and Wi-Fi MAC.

Why choose SureVideo?

Easy Configuration

Setting up SureVideo is easy and simple. Just install SureVideo on the device and configure the playlist to quickly turn devices into portable digital signages.

Customizable UI

Change wallpapers, add overlay buttons or screensavers, watermarks, and layout in HTML.

Time-saving

Auto-configure a playlist or configure lockdown settings over-the-air.

Additional Device Security

SureVideo's password-protected settings ensure that the device is not misused or tampered with.

Cloud Support

SureVideo lets you import/export settings to a secure cloud for quick and easy mass configuration and deployment.

Real-time Support

24/7 real-time technical support via call/chat/email/ticket.
