

Securing **Lenovo** Devices Across Industries with **SureMDM** from **42Gears**

SureMDM

SureMDM, a Gartner and IDC recognized Unified Endpoint Management (UEM) solution by 42Gears, makes Lenovo devices business-ready with an array of advanced security and management capabilities. Deploy, manage, and secure your devices from an easy-to-use central console.

Lenovo

Lenovo Android tablets are built and optimized to keep businesses working more efficiently. These durable devices are built to withstand heavy use, offering best-in-class features, extensive customization options and robust security. Lenovo's broad range of powerful, Android Enterprise Recommended certified tablets can be easily tailored for any task.

Lenovo Recommends 42Gears

42Gears is the recipient of Lenovo's MDM Mandate for Lenovo devices. 42Gears has been the official MDM solution vendor for Lenovo's Tablet Business Unit division since 2018.

Win-Win Award From Lenovo

Lenovo has selected 42Gears for its prestigious Win-Win Cooperation Award, reflecting the many satisfied customers who rely on Lenovo and 42Gears offerings worldwide.

SureMDM's Management Capabilities for Lenovo Devices

Device Security

Location Tracking

Enterprise App Store

Device Configuration

Application Management

OTA Updates

Business Intelligence

Configuration

- App Plugins for changing the device name for multiple devices at the same time on the central SureMDM dashboard.
- Collect details from custom hardware attachments (e.g. barcode scanner) and list them in custom columns on the central SureMDM dashboard
- Disable
 - Navigation keys
 - Hardware keys
 - USB ports
 - OTG/External SD Card
- Hide quick settings tiles & bottom bar on Lenovo Android devices.

Mobile App Management+ Mobile Content Management

- Silently install apps and updates to avoid interruptions.
- Push apps and content to devices securely and remotely.
- Deploy, manage, secure, and update apps on devices.
- Support for managed Google Play Store apps. Whitelist/Blacklist applications.
- Wipe or delete data from non-compliant devices.

Information

- **Reports** : data usage, compliance, policies deployed
- **Analytics** : device usage patterns

Security

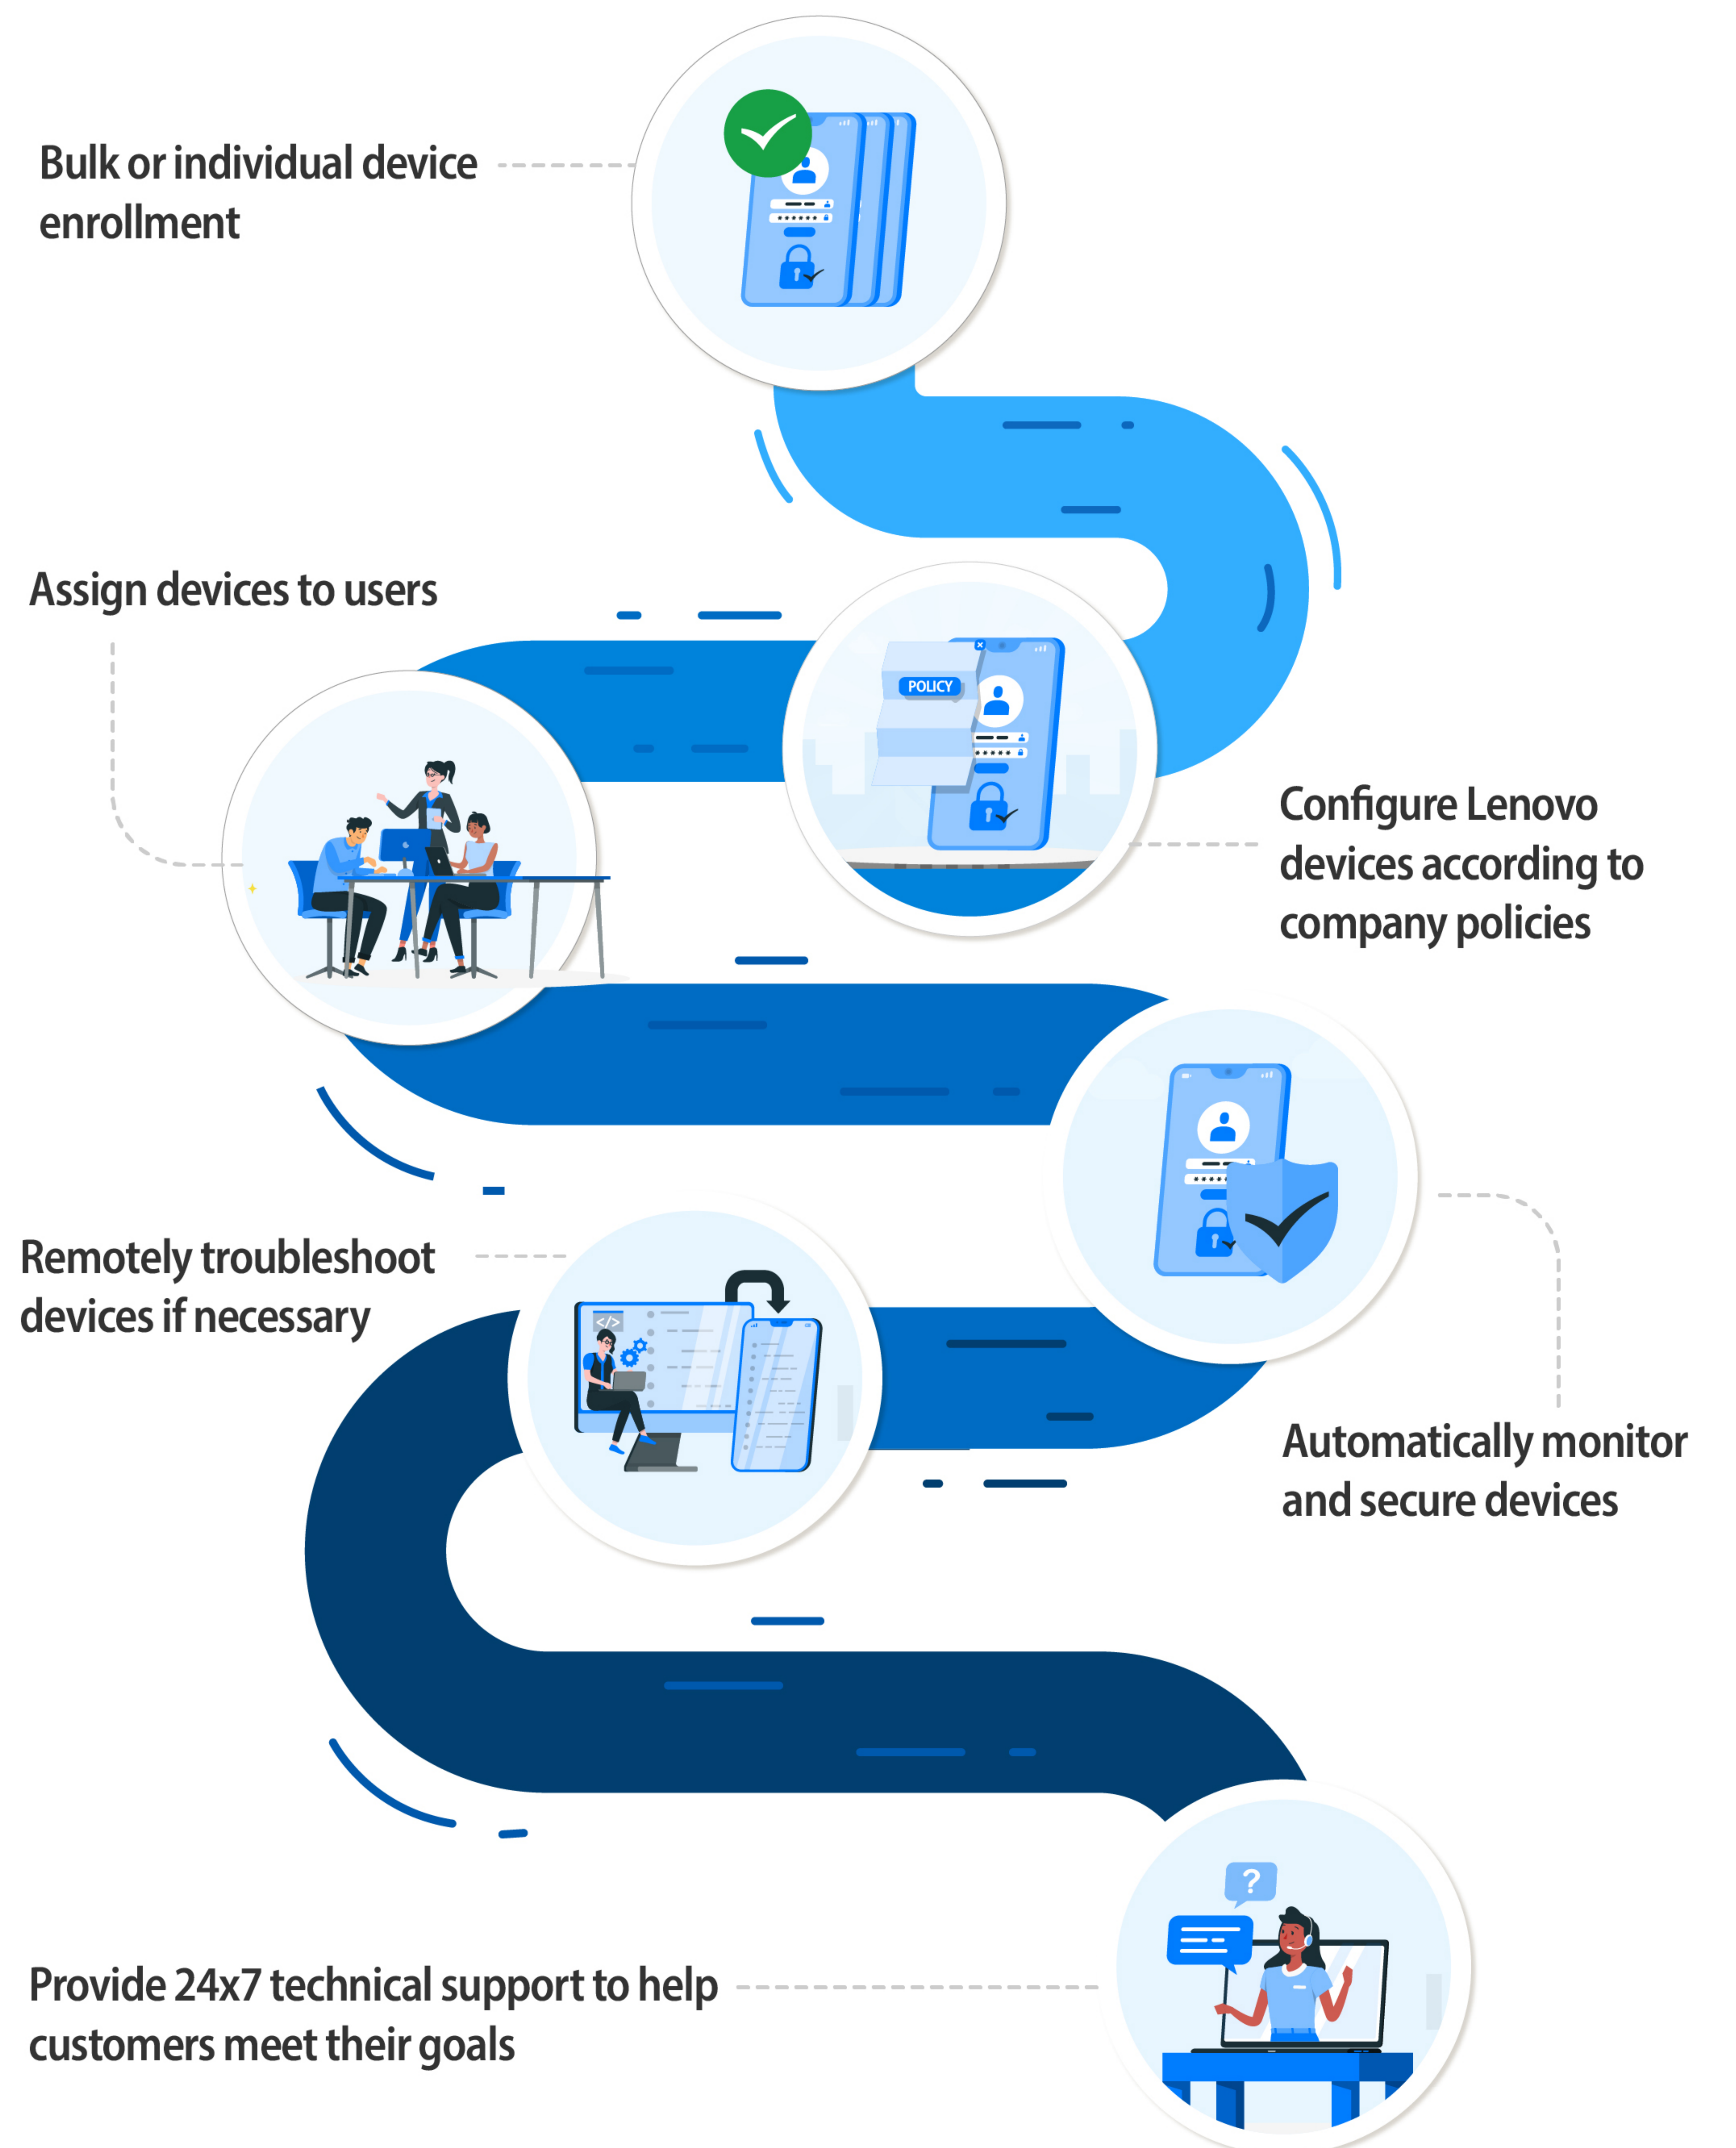

- MTD- Protection against attacks at device, application, and network levels.
- Activate policies automatically with Geo-, Time-, and Network-Fencing.
- Push rigorous password policies to devices.
- Disable factory resetting, USB debugging, and screen capture.
- Restrict access to safe mode (above Android 6.0).
- Restrict access to modifications of accounts.
- Detect rooted or jailbroken devices.

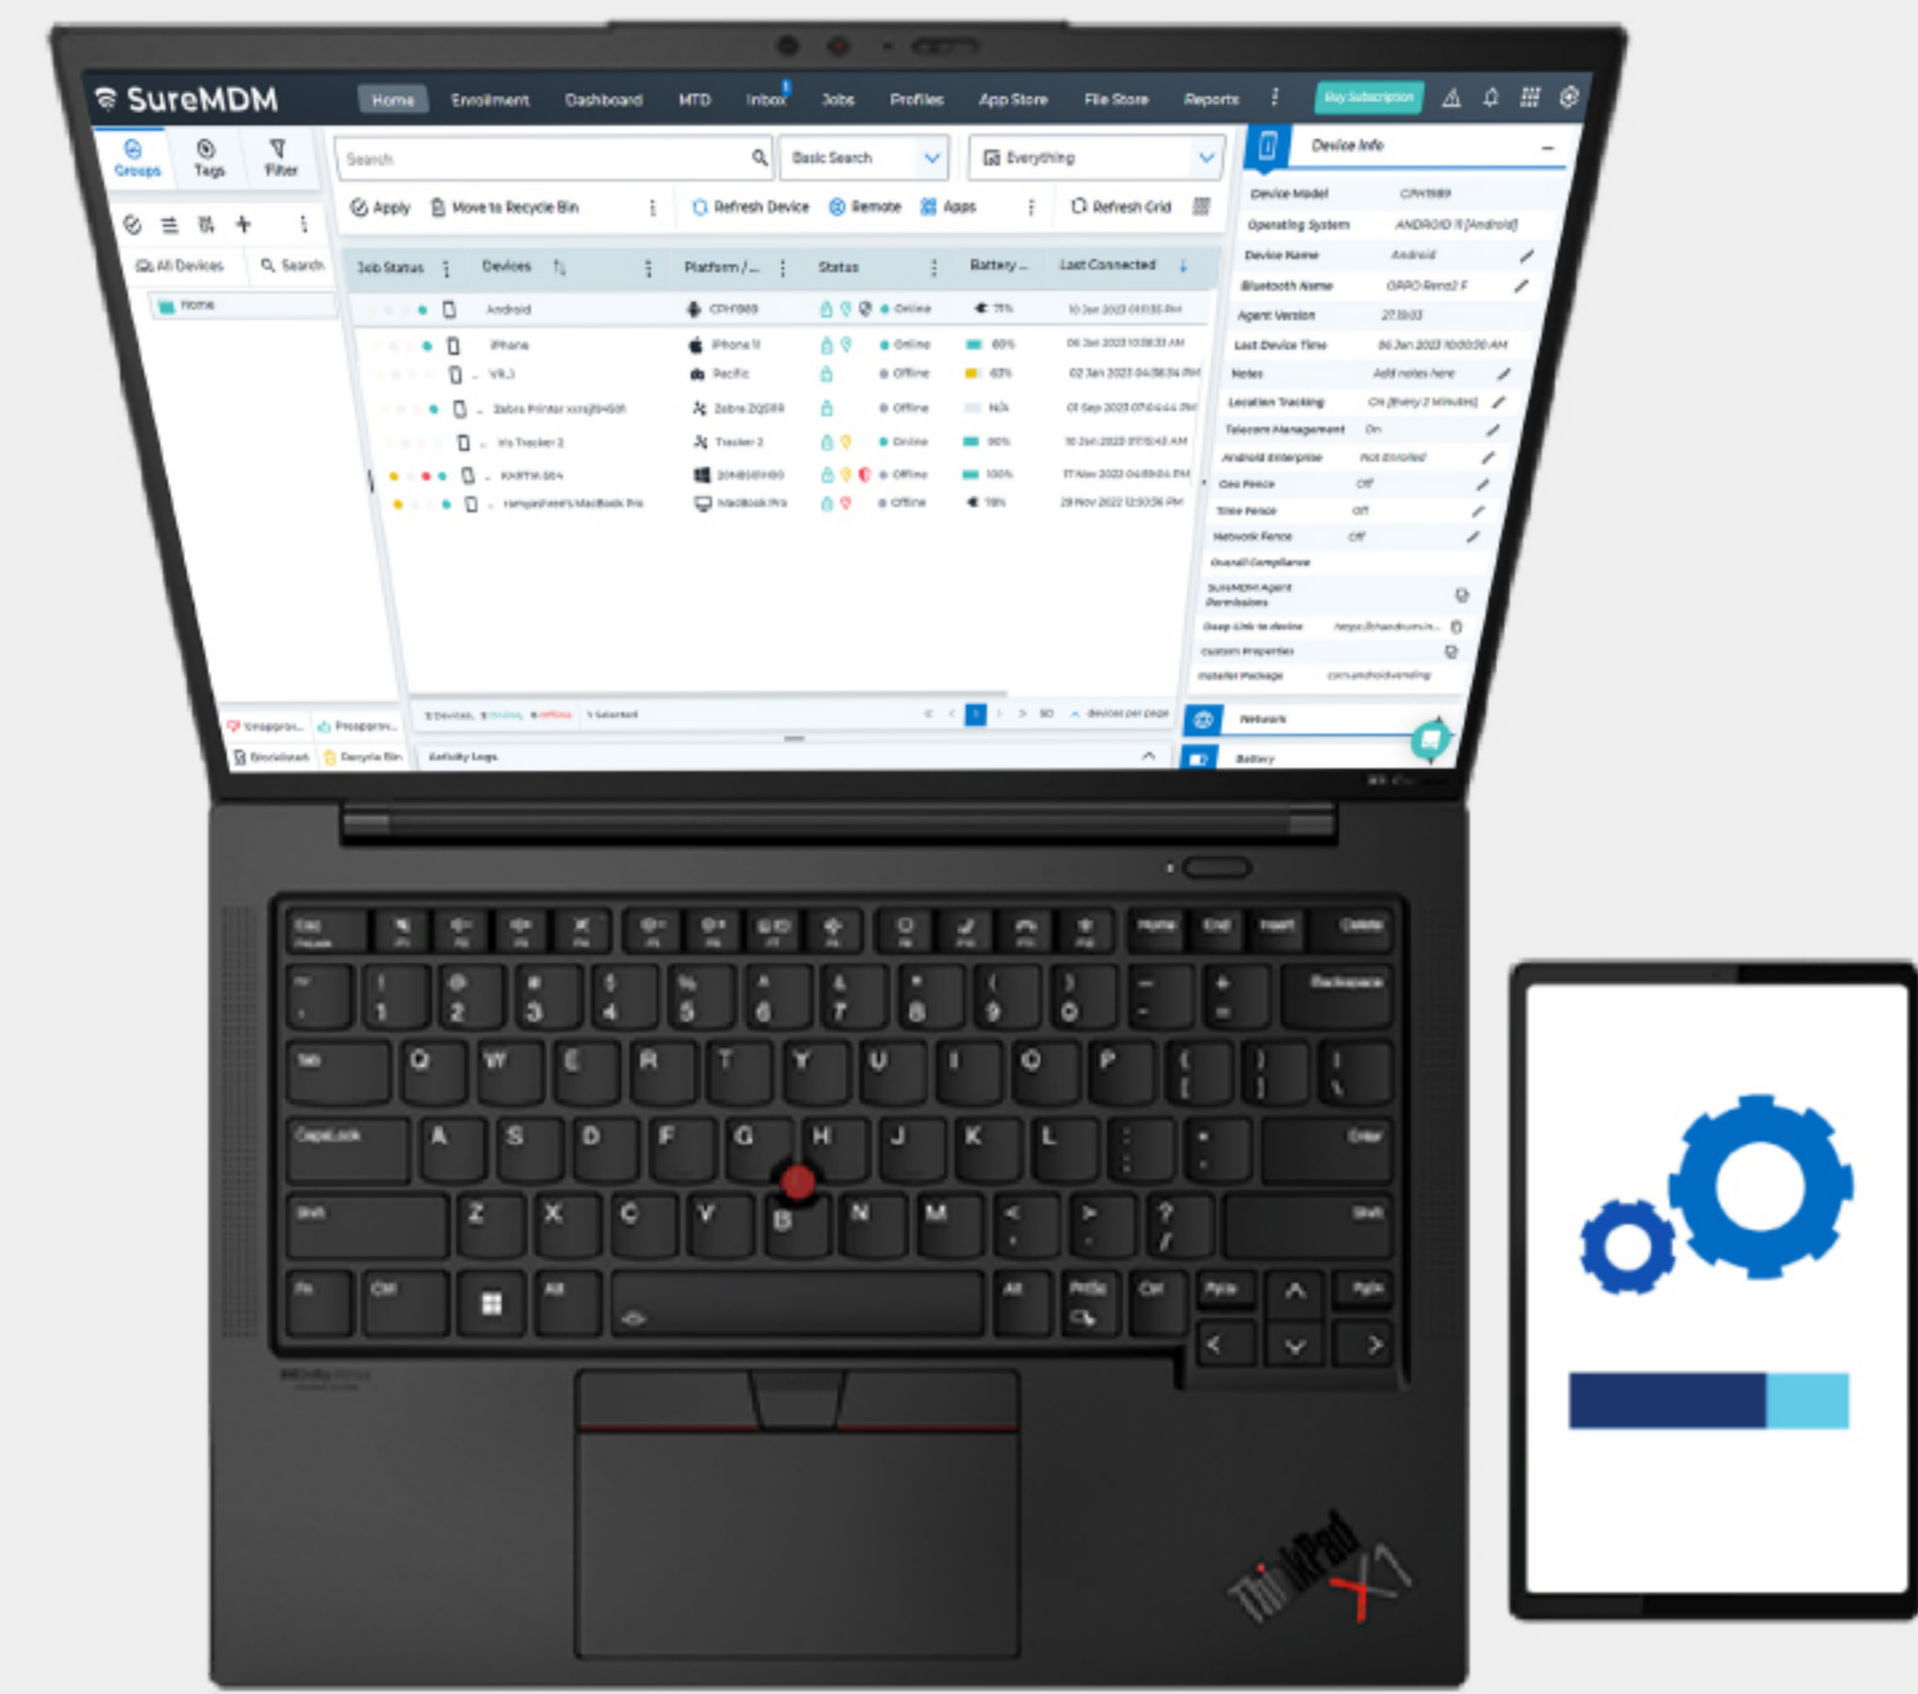

Remote Control and Troubleshooting

- Remotely view and control devices.
- Remotely manage mobile data.
- Browse device files and folders.
- Schedule device reboot.
- Remotely lock, reset, or wipe devices if they are stolen or violate configured restrictions.
- Remote screen recording.
- Multi-admin remote control.

End-To-End Process Management By SureMDM

42Gears Support for Zero Touch Enrollment (ZTE)

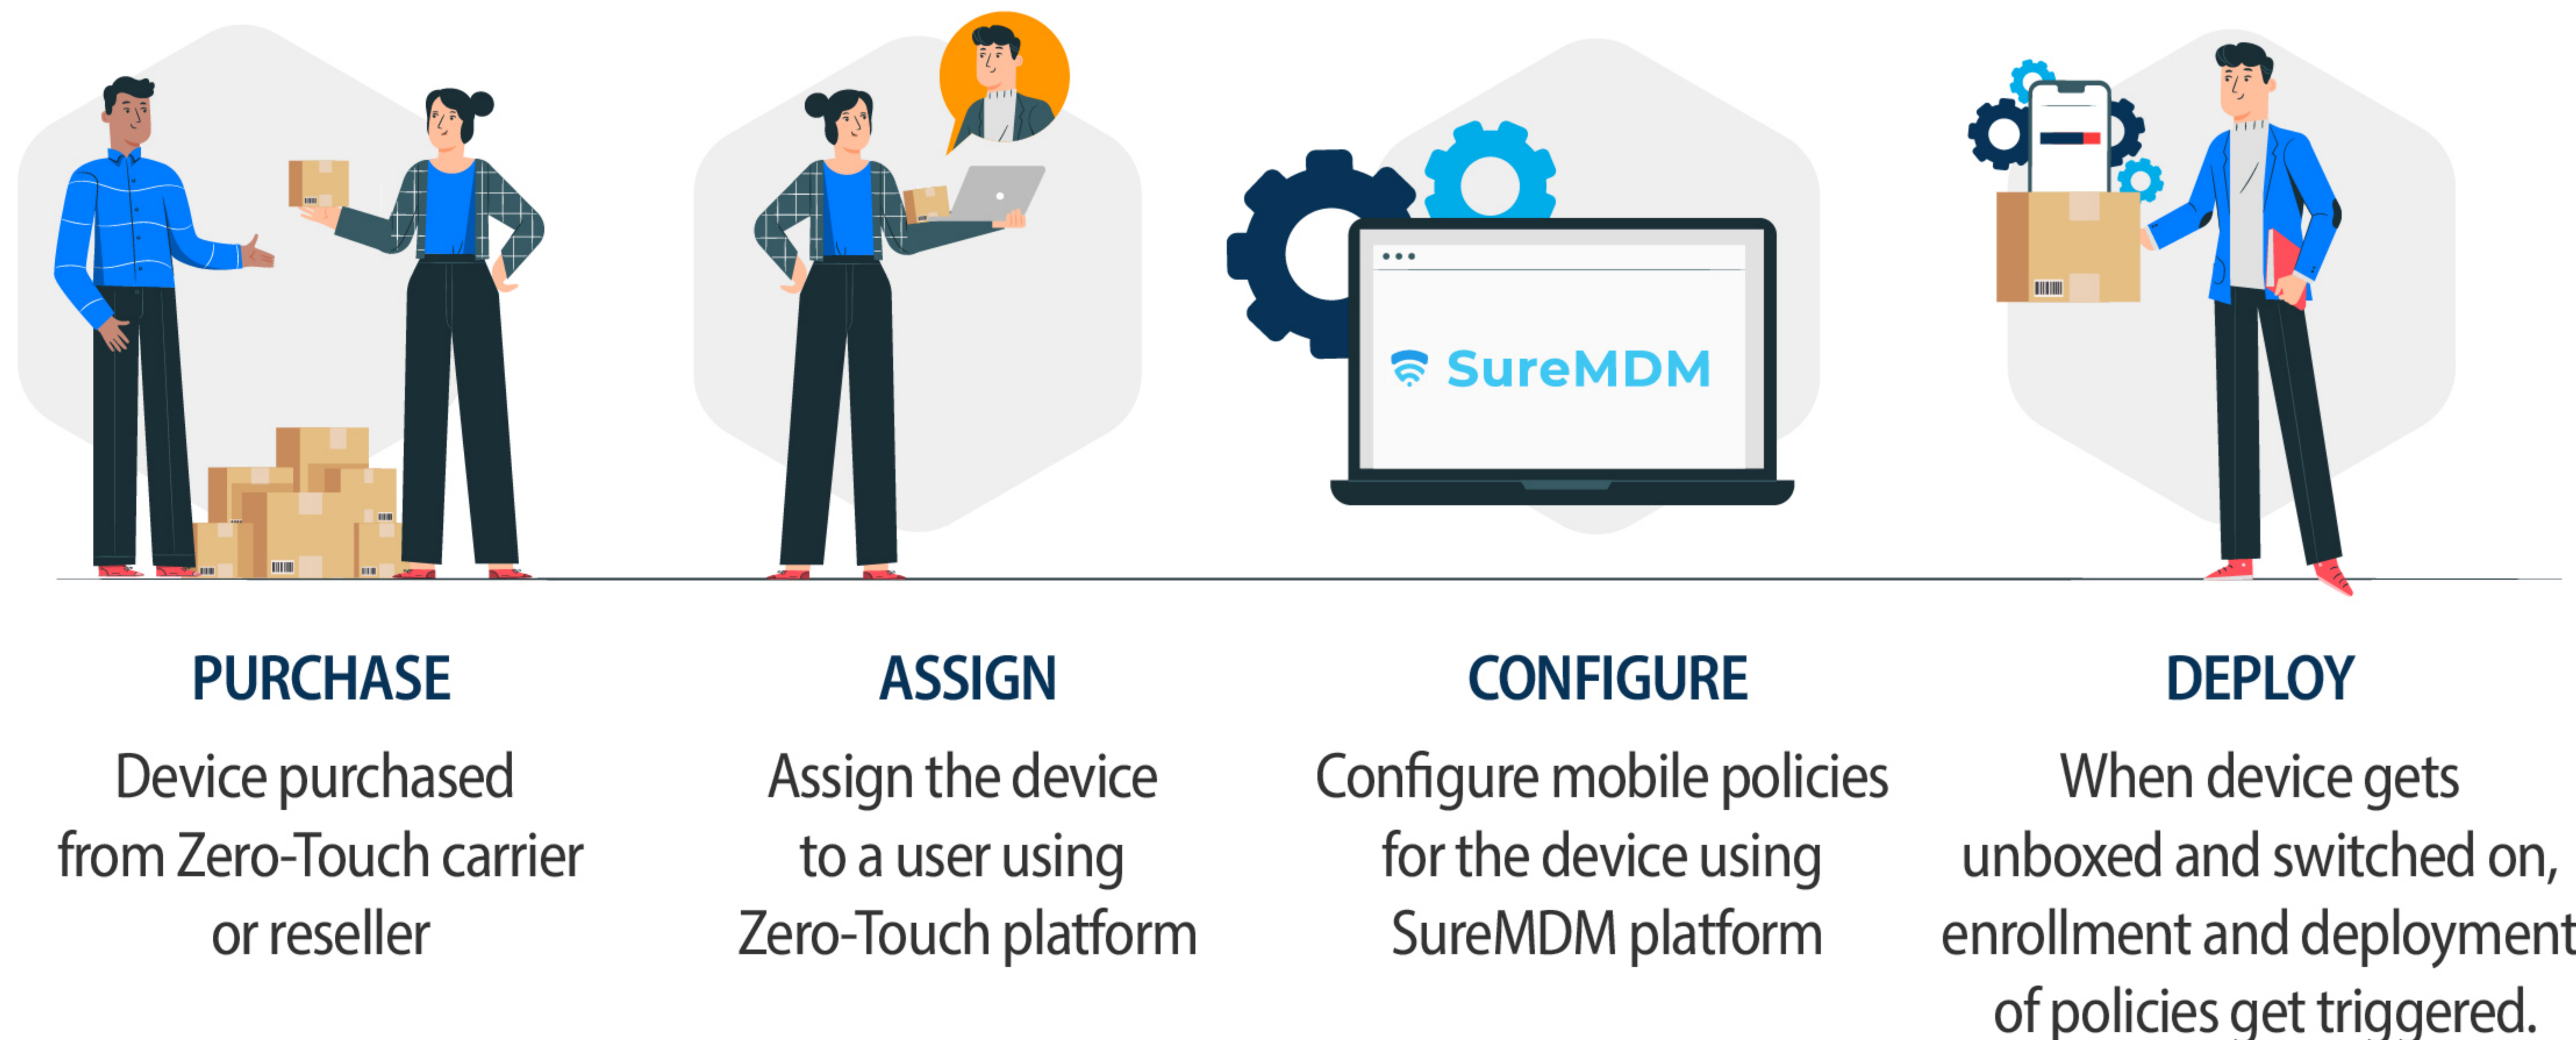

42Gears supports Android Zero-Touch Enrollment (ZTE) on Android Lenovo devices. Once installed on Lenovo devices, SureMDM allows IT admins to enforce out-of-the-box device management.

How does this impact users?

With SureMDM's support for ZTE, users can start using Lenovo Android devices with pre-set enterprise settings and applications right away.

Note: ZTE is supported on Android Enterprise recommended devices with Android Oreo (8.0) and above only.

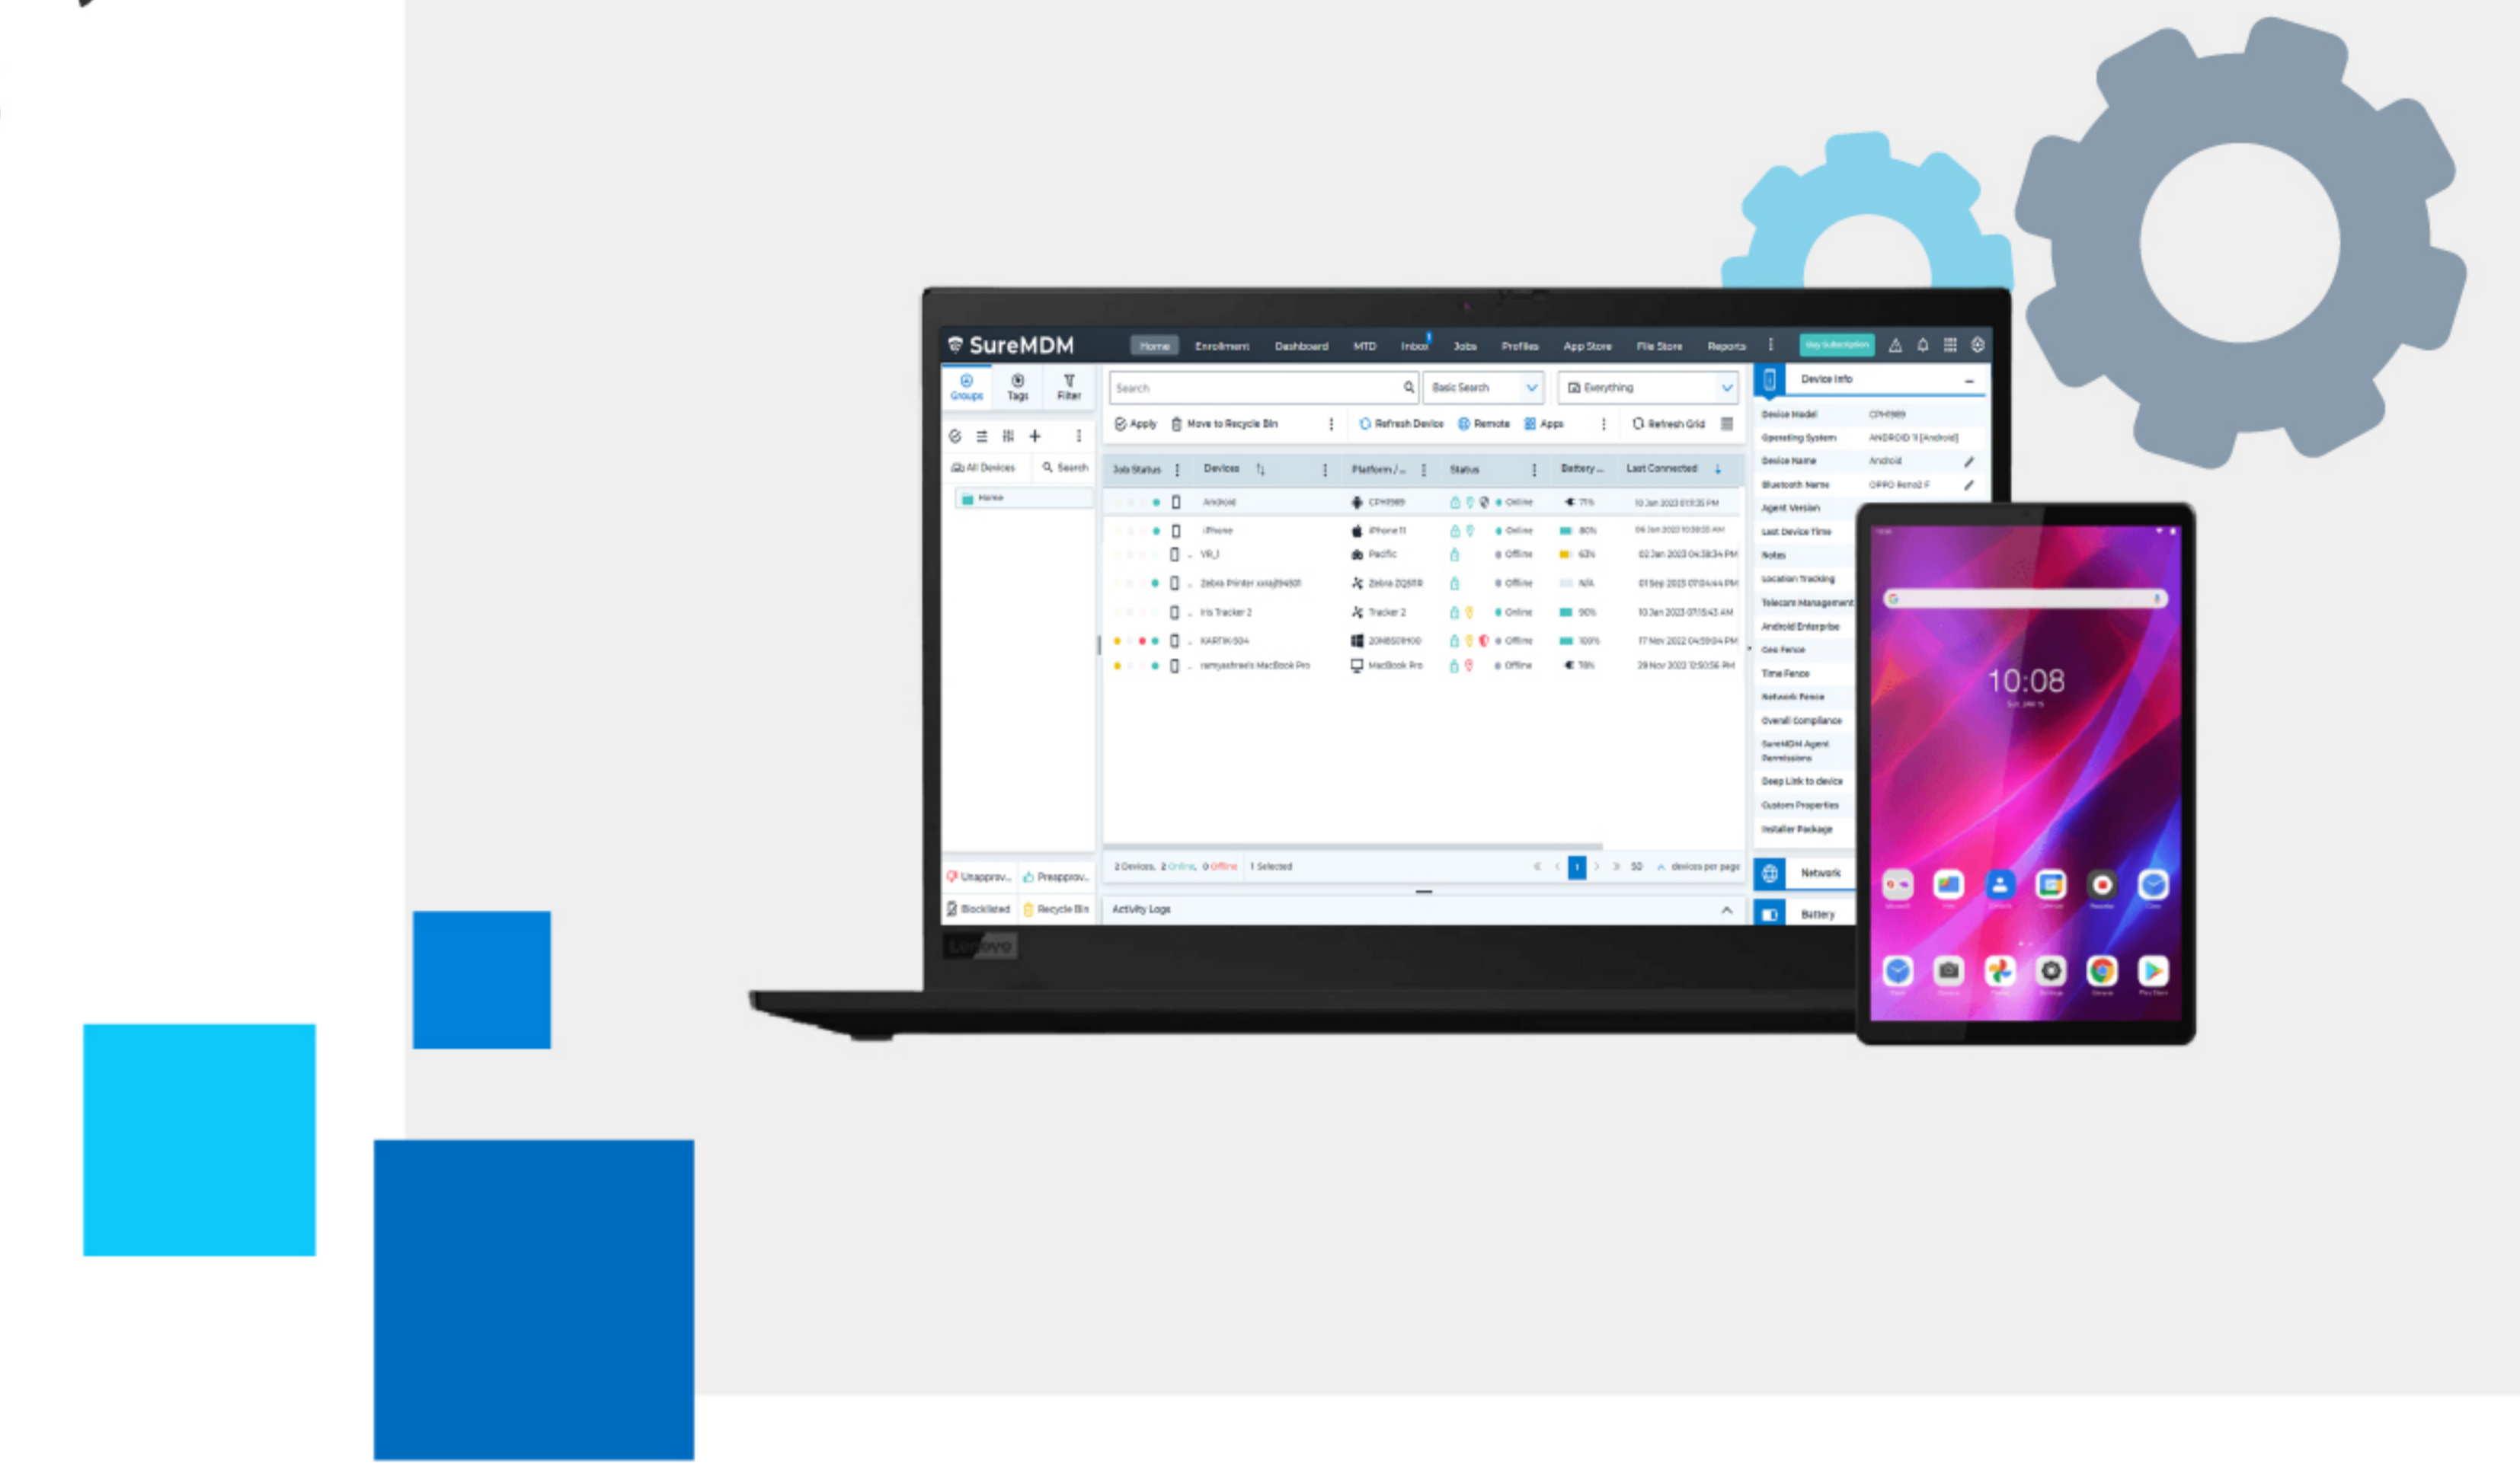

With Zero-Touch enrollment registered devices, admins have greater control on tasks like deploying apps silently or creating kiosks on the devices before they are deployed

How does ZTE benefit IT admins?

With ZTE-registered devices, admins have greater control over tasks such as deploying apps silently or turning devices into dedicated-purpose tools (kiosks) before they are deployed.

- Automatically configure devices in bulk
- Stay in control of devices at all times- even after factory resets
- Make setup easy for employees- they can unbox a device, sign in, and start using it right away

Why SureMDM?

- **Deployment Options:**
Cloud & On-premise
- **Recognitions:**
IDC recognized SureMDM as a leader in Ruggedized/IoT devices in 2022.
- **Reseller Support:**
Multi-tier and Multi-tenant
- **Things Management:**
Painless management of Things/IoT/peripheral devices
- **Usability & Analytics:**
Emphasis on ease-of-use, with a central dashboard showing every device at-a-glance
- **Multi-OS Support:**
Support for all major operating systems - Android, Windows, macOS, iOS, Linux, and more
- **Security:**
Strong security with a proprietary MTD solution
- **Reporting:**
Robust run-script library and custom reporting
- **License Management:**
Streamlined license management for distribution
- **End-User Support:**
24x7 support to resolve end-user queries

Why **Lenovo**?

- Broad range of powerful, AER (Android Enterprise Recommended) certified tablets
- Fast and powerful, thanks to high-performance processors
- Sleek durable design for contemporary simplicity
- High-definition displays in a range of screen sizes offering HD, FHD and QHD options
- Uncompromised battery life, with quick charge and long-lasting power
