

Leverage SureMDM to Manage Zebra Enterprise Devices

Although mobile devices empower field workers, managing devices efficiently is a challenge. SureMDM provides comprehensive device management and security features to help businesses remotely manage, monitor, secure, and troubleshoot devices in real time.

SureMDM secures and manages Zebra enterprise devices across different industry verticals with features like:

Device Provisioning:

Quickly and consistently provision profiles and applications on every device.

**Remote Management:**

Install, configure, update, or remove applications and content remotely.

**Secure Network Configuration:**

Configure device connectivity (3G/4G, Wi-Fi, and VPN) such that devices can connect to secure networks only.

**Remote Support:**

Control the device screen remotely and simulate key and touch events to remotely operate the device.

**Real-time Monitoring:**

Locate, trace, and secure lost or misplaced devices at any time.

**Secure Browser:**

Safeguard against Internet threats with SureMDM's mobile browser, and customize with configurable features and security settings.

**Peripheral Management:**

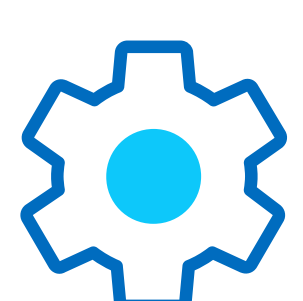

Remotely control device and peripheral settings such as a device's camera, App Store access, and connectivity (including Wi-Fi, Bluetooth, and NFC).

SureMDM has successfully completed the Zebra Technologies Enterprise Validation Program for a host of Mobile Computers, Printers, and RFID devices including EC30,EC50, FX7500,FX9600,ZQ500 and ZQ600 series. This includes support for the following features:

- ▶ **StageNow:** For enrollment and configuration management
- ▶ **OEMConfig:** For configuration management
- ▶ **LifeGuard OTA:** For firmware management
- ▶ **Remote Control:** For troubleshooting
- ▶ **Things Management:** To remotely manage and monitor Zebra Link-OS printers.

SureMDM is the first device management solution approved by Zebra to offer support for LifeGuard OTA 2.0.

SureMDM Features for Zebra Enterprise Devices

**Device configuration:**

- ▶ OEM Config using Enterprise APIs
- ▶ StageNow: Device Enrollment using barcode

Device Management:

- ▶ Remote control with tool event injection
- ▶ Kiosk Mode: Keeping device lockdown to single application
- ▶ Remote application update
- ▶ Things Management: Remotely manage and monitor Zebra Link-OS printers

Device security:

- ▶ LifeGuard OTA 2.0: Firmware updates Over-the-Air (OTA)

Benefits of Managing Zebra Devices with SureMDM

- ▶ Rapidly provision Zebra devices with SureMDM support for Zebra StageNow.
- ▶ Remotely update applications and firmware (including Zebra LifeGuard updates) Over-the-Air.
- ▶ Restrict users to access only pre-approved business applications.
- ▶ 42Gears' revolutionary Things Management technology simplifies Peripheral Device Management.
- ▶ Minimize device downtime by ensuring workers cannot change the settings you choose.
- ▶ Integrate seamlessly with existing infrastructure.
